## WHAT LAND AND FREEDOM STANDS FOR

*We declare:*

That the earth is the birthright of all Mankind and that all have an equal and unalienable right to its use.

That man's need for the land is expressed by the Rent of Land; that this Rent results from the presence and activities of the people; that it arises as the result of Natural Law, and that it therefore should be taken to defray public expenses.

That as a result of permitting land owners to take for private purposes the Rent of Land it becomes necessary to impose the burdens of taxation on the products of labor and industry, which are the rightful property of individuals, and to which the government has no moral right.

That the diversion of the Rent of Land into private pockets and away from public use is a violation of Natural Law, and that the evils arising out of our unjust economic system are the penalties that follow such violation, as effect follows cause.

*We therefore demand:*

That the full Rent of Land be collected by the government in place of all direct and indirect taxes, and that buildings, machinery, implements and improvements on land, all industry, commerce, thrift and enterprise, all wages, salaries and incomes, and every product of labor and intellect be entirely exempt from taxation.

That there be no restrictions of any kind imposed upon the exchange of goods within or among nations.

### ARGUMENT

Taking the full Rent of Land for public purposes would insure the fullest and best use of all land. Putting land to its fullest and best use would create an unlimited demand for labor. Thus the job would seek the man, not the man the job, and labor would receive its full share of the product.

The freeing from taxation of every product of labor, including commerce and exchange, would encourage men to build and to produce. It would put an end to legalized robbery by the government.

The public collection of the Rent of Land, by putting and keeping all land forever in use to the full extent of the people's needs, would insure real and permanent prosperity for all.

*"It would require less than the fingers of the two hands to enumerate those who, from Plato down, rank with Henry George among the world's social philosophers . . . No man, no graduate of a higher educational institution, has a right to regard himself as an educated man in social thought unless he has some first-hand acquaintance with the theoretic contribution of this great American thinker."—JOHN DEWEY.*
