THE AUTHORS received the generous advice of many experts, some of whom requested anonymity. Thanks are particularly extended to V.H. Blundell, Chris Bryant, Geoff Clarke, Alice Coleman, Richard Fordham, T. Hardie, St. John Hartnell, David Little, Joe Martin, Ron O'Regan, Syd Price, Andy Prokop, Janet Shaw, Mike Skaife, Charles Smart, Jimmy Walker, Peter Walls, Nick Ward and Hector Wilks. None of them is responsible for any errors that may be contained in this study, the responsibility for which rests with the authors; nor should they be regarded as endorsing the conclusions arising out of the enquiry into a politically most sensitive issue.
