920-921 Ford Building • Detroit 26, Michigan
WOODWARD 1-6025

INTERNATIONAL HEADQUARTERS
50 E. 69th St., New York, 21, N.Y.

June 3, 1963

Dear Lu:

I am so sorry to hear that Joe has been back in the hospital again. He is such a great guy that he should never be sick at all. And I do hope the radium treatments will kill that awful disease. If we could just find cures for such diseases here on earth instead of shooting rockets to the moon, what a better world we would enjoy.

Yes, I was planning on seeing him at the Toronto conference and going with him and the others to a little gin mill around the corner where we could really associate once again. I would dance the new Bossa Nova for him and hear him chuckle. We would lambaste the dunkopfs for not being able to understand that in light of the spurious interest on the unearned decrement of retail profit when exposed to all the exigencies of real competition and increasing population at the margin when held for speculation by those self-same dunkopfs, there is still land. Wow! What'd I say?

And as for the New York conference next year, He had better be there and in good form, too. I intend to dye my hair a beautiful gray and grow another foot. Wont I look funny with three?

Our classes are so small I feel like resigning until I see bums sitting on curbs in front of vacant land. The students we do get are really very fine people but there just aren't enough of them. Pollard gave speaking lessons. Maybe I should throw in some free twist lessons.

But we must keep on keeping on.

I will be anxious to hear about Joe frequently. I thank you very sincerely for writing to me.

Tell him the conference at Toronto positively won't be the same without him. Already I'm having a very bad time just thinking about it.

Sincerely,
