ACKNOWLEDGEMENTS

I wish to thank Dick Croke for his willing and expert editorial work which made the matter presentable. To Loma Sutton for the time and effort she put in on the typing, to Tax Reform Australia granting the use of their word processor and the photocopying. To all those who read the original drafts and the encouragement they gave, especially Gordon Wilson in the early stages. Also I am grateful to all the members of the University of the Third Age who attended the discussion groups and made valuable suggestions which when incorporated into the text increased its simplicity. Thanks to Keith Thomas for the Indexing and his detailed work on the final draft. Lastly, thanks to my family some of whom helped in the proof reading and others with their encouragement and criticism.
