

Centennial Celebration and Mourning

The 33rd Conference of the Council of Georgist Organizations

1913: It was the best of years, it was the worst of years. It was the year of Pittsburgh's land value tax; it was the year of the United States's income tax. It was the year of the first US Georgist victory; it was the year of the greatest Georgist Schism. Come to Pittsburgh to celebrate 100 years of land value tax in Pennsylvania, and to mourn 100 years of income tax that was supposed to fall only on rental income.
