Miss Harry =

John reads your book
on the train today and I am
writing to say that it moved
me (in places) very deeply. It
is best in the main parts
and attains force and brilliancy
in dealing with the political-
economic situation. As a first
attempt in the field of fiction
it is more than a promise. —

In the matter of the spelling of
the vernacular I do not feel
that you're quite lucky. Why
try to keep so close to it anyway?

Keep to your rest!
