INDEX TO THE PUBLIC FOR THE SIXTH YEAR

COMPRISING NUMBERS 262 TO 313, INCLUSIVE

The three departments, Editorial, News and Miscellany, are indexed together, but distinguished wherever the distinction is important. Reference figures refer to the page numberings of the volume. The classification follows geographical divisions as closely as possible. N. B.—In searching for an article, do not make a guess as to where it ought to be classified and then look for it there; but glance down the main headings of the index until you come to the classification which you think will probably include a reference to it.
