THE AWAKENING OF ASIA

By H. M. HYNDMAN, author of "Clemenceau: The Man and His Time," etc.
 This book is the outcome of forty-five years of study and intimate knowledge of the Far East—a permanent book but also an extremely timely one for those interested in Shantung and other questions of the moment.

"This is the language of a prophet—stern, denunciatory, the embodiment of a flaming spirit of righteousness. The same downright vigor and interest characterize all of the opinions of the Far East expressed by this eminent Englishman. The reader is conscious of being in the presence of a man whose mind is cleared of cant."—SPRINGFIELD REPUBLICAN.
