Mr. Burton N. Jones,
President, "The Georgists",
4102 East Elbridge Road,
Philadelphia, Pa.,

Dear Mr. Jones:

This may be shockingly unexpected, but I am tendering my resignation, to take effect immediately, from all of the various committees of "The Georgists". From now on, my activities in the club can be only those of an interested member, and as such I will always do anything within reason to further its interests.

My reasons for resigning so precipitately are entirely personal, and have nothing to do with the club or its aims and activities. However, they are important and valid to me, and I can assure you this decision is both considered and final.

I am collecting all of the club records and property in my care, and shall leave them at the Social Service Building some time by the first of next week.

Believe me, I regret taking this step, but it is an absolutely necessary one.

Sincerely yours,

Bettie B. Tustin
