MANIFESTO TO THE ELECTORS

FREE TRADE IN ITS FULLNESS TAX LAND VALUES

"We declare our unfaltering adherence to the principle of Free Trade, which for its full expression requires the removal of all taxes and rates that now fall upon trade, industry, buildings and improvements ;

"We affirm that the value of land, which is due wholly to the presence, growth and efforts of the community, is the proper and natural source of public revenue ;

"We condemn all proposals that would place further burdens upon production and exchange, whether by the insidious method of a tariff, or by repressive direct taxation of industry ;

"We offer uncompromising resistance to all measures, by whomsoever recommended, for land purchase with the help of State funds, and to any fiscal or financial policy which taxes the labour and capital of the country for the aggrandisement of special privilege ;

"We oppose all such devices as grants-in-aid to agriculture and public expenditure to 'provide work,' whose certain result is to increase the price of land, raise higher the obstacles to production interposed by land monopoly, and so aggravate existing poverty and distress.

"Holding to the principle of complete Free Trade, freedom to produce as well as freedom to exchange, we call on the millions of voters who believe in the Taxation of Land Values as an instrument to free industry and enterprise from the fetters of monopoly, promote the best use of land, and open new opportunities to trade and employment, to give their voice and their vote only to candidates who stand for this liberating policy."
